the first time, the students were asked to write a letter to the author of the article. The students were given a template for the letter, which included a space for the student to write their name, a space for the student to write the date, and a space for the student to write the address. The students were also given a list of questions to ask the author, which included: (a) What was the purpose of the study? (b) What were the research questions? (c) What were the hypotheses? (d) What were the results? (e) What were the conclusions? (f) What were the limitations? (g) What were the implications? (h) What were the future research directions? (i) What were the strengths of the study? (j) What were the weaknesses of the study? (k) What were the contributions of the study? (l) What were the practical implications of the study? (m) What were the theoretical implications of the study? (n) What were the methodological implications of the study? (o) What were the ethical implications of the study? (p) What were the social implications of the study? (q) What were the cultural implications of the study? (r) What were the environmental implications of the study? (s) What were the economic implications of the study? (t) What were the political implications of the study? (u) What were the legal implications of the study? (y) What were the historical implications of the study? (z) What were the contemporary implications of the study?

### Discussion and Conclusion

The purpose of this study was to explore the experiences of students who had completed a research project. The study was conducted using a qualitative approach, and the data were collected through interviews with the students. The results of the study indicate that the students had a positive experience with the research project, and they had learned a great deal from the experience. The students also indicated that they had developed a number of skills, including critical thinking, problem-solving, and communication skills. The study has a number of limitations, including the fact that the sample was small and the data were self-reported. However, the study does provide some useful insights into the experiences of students who have completed a research project. The study also has a number of implications for future research, including the need to explore the experiences of students who have completed a research project in different contexts and with different types of projects. The study also has a number of implications for practice, including the need to provide students with more support and resources when they are completing a research project.

## Homecoming Traditions

*The big game, the court, the field show, the floats, the cheering, the screaming and the big win: all important traditions during the Homecoming Season.*

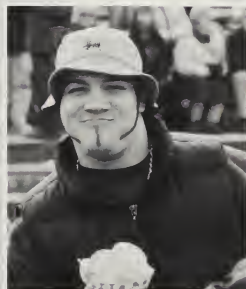

**AND THE BAND PLAYED ON:**  
Drum Major Clarissa Houser leads the band on to the field during the annual Homecoming Field Show.

**CUT:**

**THE PROCESSION:**

Nicole Cochran, Tony Warnke, and Sukey Pierce, only three of the Senior Class Homecoming representatives, proceed down the football field during the annual halftime announcement ceremony.

**WALK OF FAME:**

The spirited Class of 1999 crowded their float with Seniors dressed in purple and white and balloons gallore. Behind them lies a banner with names and handprints of possibly future stars in Hollywood. Stars or not, the Senior Class did win second place for their interpretation of the theme.

**WHAT'S COOKIN':**

The game was on Saturday November 14, 1998. Because of a change in schedule the game took place at 1 p.m. on Saturday, rather than the traditional Friday night game. The change allowed Mike Kelley to enjoy some nachos from the concessions stand for lunch.

#### DANCIN' THE NIGHT AWAY:

Marie McSweeney and James Gray dance at the annual Homecoming Dance in the cafeteria. The music was provided by Seismic Sound.

#### THE BEST NIGHT OF THE YEAR:

There was no way that Jim Decatur was going to miss the annual Homecoming Dance. Despite crutches and a wheelchair, Jim still had a blast. It is a night that no one wants to miss. Not even broken bones can keep students away.

#### STARRY NIGHTS:

For this group of Freshmen girls, the dance was the beginning of high school life. For others, this dance was one of their last. My how time flies.

#### BOOGIE NIGHTS:

Jesse Lopes, Lindsay Hansen, Liz Mortensen, Marie McSweeney, and Lindsay Blais find a corner of the cafeteria to dance. They could dance all night if they wanted to.

#### NIGHT COURT:

Far from being a late hour sitcom, members of the court were announced at the formal ceremony and crowning in the cafeteria.

## BASEBALL - SOFTBALL

What a tough year for the Baseball team. They gave it their all every game, but had a hard time beating the competition. One extraordinary exception was when they shut out the Upper Cape Regional ball players in a 12-0 beating. They posted a 5-17 overall record, 2-14 in the SCC. Their 1999 season looks very promising.

The Girl's Softball team experienced the same bad luck, ending the year with a 6-14 record, 2-14 in the SCC. Despite their hard effort, their opponents brought them to a loss. Towards the last half of the season, however, the team was able to win big against Harwich.

**REVVING UP FOR A WIN:**  
The Softball team gets psyched up for the game.

**SUPERMAN:**

### WHAT A FACE:

As shown here, Basketball isn't all fun and games.

# Boys' Basketball

## *Varsity and Junior Varsity*

Coached by Athletic Director Mark Southworth, the Boys' Basketball Team is a good example of sports at Bourne High School. Like all teams, practices are held almost every-day after school and also on the weekends. It is definitely a full commitment. In the end it is all worth it. For many years the basketball team has placed high in the divisional rankings. Junior Varsity is coached by Scott Ashworth. Mr. Ashworth also assists in coaching the Varsity team. The junior varsity and varsity teams practice together and have games one after each other. Unfortunately, this year, many of last year's players did not return to complete a fourth year on the team. Despite this upsetting loss, the team still managed to do very well this season.

### TEAM WORK:

#4 takes the jump shot as team mates move in to box out. This strategy has allowed the team to beat many of its opponents.

### TAKING IT TO THE HOLE:

JT Simms on the lay up as Case #43 tries to stop him. Unfortunately for Case, Bourne makes the basket. Go Bourne!

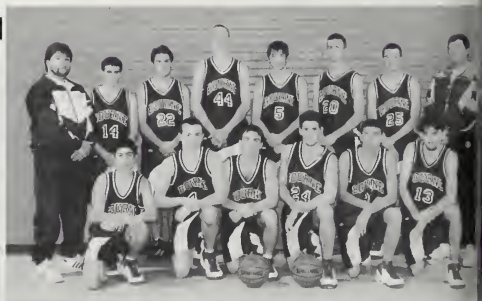

### SHOOTING TO WIN:

JT Simms takes his shot on the foul line, this means, more points for Bourne. These points are vital to Bourne's outcome in this game.

# Cheerleading

## *Basketball and Ice Hockey*

Packing pounds of spirit in their pom-poms, cheerleaders for the Bourne High school teams work very hard to add pep to each game.

Cheerleaders travel with the teams to away games and represent our school spirit. In addition to cheering at games, cheerleaders participate in various competitions held around the Cape and also participate in pep rallies held for major sporting events.

Cheerleading is quite an accomplished sport. Many participants stick with the sport for four years. It is a very active sport. Cheers, routines, and formations must be committed to memory and executed with care.

Unity is a major part of making the cheering experience effective to the crowd. Caution must also be taken when doing flips and pyramids.

### **WHO'S NUMBER ONE?:**

Bourne Hockey Cheerleaders let the crowd know just who Bourne is--we're number one!

### **CAPTAIN:**

Allison Brunetto is only one of three captains. The other two are Katie Bean and Chenel Gosselin. Together they lead the cheers and lead the group simultaneously.

### **THE TEAM:**

and members include the following: Katie Bean, Allison Brunetto, Chenel Gosselin, Desiree Diana Palo, Syreeta Barros, Vanessa Gray, Kelly Jochim, Courtney Miles, Gisele Miller, Heather O'Connor, Nicole Schmidt, and Moira Robinson.

### **■ B-O-U-R-N-E! GO, FIGHT,**

### **WIN! ■**

Cheerleaders spend many hours rehearsing cheers and routines to get it just right. Cheerleaders working together...what a beautiful thing.

Bourne's number 10 scores on Foxboro's goalie. That'll be 150 to 0, Thank you! This year the team did very well. However, they were upset in the 1999 Canal Cup. The final score was 9-2. It didn't matter. The team spirit was sky high despite the loss.

## RENAISSANCE

Renaissance club led by adviser, Noreen Parker led a very productive year. Among their charitable events are the campus beautification, tours for incoming eighth grade students, provide concessions at plays, and volunteer at a food pantry. There are two types of members in this club: Gold Card and Silver Card. The Gold Card members represent the top 10% of their specific class. The Silver Card members represent the top 20% of their class. Gold Card members are permitted to be exempt from one elective class final. Renaissance is one of the clubs that recognizes outstanding achievement in the academic arena. It celebrates hard work and dedication.

## STUDENT COUNCIL

At the end of each school year, with the exception of the incoming eighth graders, elections are held for class officers and for Student Council. Elections for the officers of the eighth grade are held during the first few weeks of school. Mrs. Voy is the advisor of the Student Council. The Student Council fund-raises by selling candy grams, sponsors a canned-food drive during the holidays, suggests changes to school policy, and represents the student body.

This year the student council representatives are as follows:

## CHESS CLUB

The Chess Club is a new club this year. It was added after Christmas Break. The club meets every Thursday and members play games against each other. Mr. Thomas is adviser to the club.

The club was founded by senior Nathan Race. This club gives students another activity outside of sports to participate in. Currently this club operates only in Bourne High School and does not participate in any interschool matches. Perhaps in the future that will change.

The Cape Cod and Islands Youth Congress has been in existence for seven years.

Formed originally to teach youth about legislation and parliamentary procedure, the

Congress now puts on an annual Conference held at Cape Cod Community College. This is only the third year that the

Congress has run the conference. The Cape Cod Youth Council originated the Congress but since its disbandment, the

Congress has taken on the responsibilities of both the conference and legislation. This year the Congress held the tenth annual conference entitled Connecting the Cape.

The Sheriff's Department of Barnstable County sponsors this youth organization. John

Clarendon is the advisor to the Congress; however, the Congress is otherwise run by high school student across the Cape and Islands. This youth program will be sure to continue throughout the years.

## PEER LEADERSHIP

Started in the fall of 1996, Peer Leadership is advised by adjustment counselor, Mrs. Dimitri, and Health teacher, Ms. Cox. Since that time the group has grown in number, and has made many contributions to both the school and community.

Projects include: "Adopt a Living Doll" (buying clothes for needy children at Christmas); "Yellow Ribbon Cards" (to prevent teen suicide); and "Choose Not to Use Week."

Peer Leadership was also responsible for creating and holding the Coffee Houses at the Pocasset Community Building from 1996-1998.

Peer Leadership continues to grow in number and in activity in the school and community. This newly formed organization is a vital part of our school.

We have grown and

### CHORUS:

With practices on Tuesday after school, the chorus prepares at least two a year of concerts. This is only the second year that the chorus has been a club at Bourne. It is under the direction of Drama teacher and director Mrs. Collela.

### BACKSTAGE:

The drama club relies on volunteers to help put on two productions a year. The performances are always entertaining, fun, and memorable.

### CAN YOU SAY FOCUS?:

Photography class teaches students to take pictures and develop pictures. Here the focus is on Mike Murphy, looks like our photographer should take the class.

#### PERFECTION:

In addition to a crew made up of students, many parents and other adults volunteer their time to make sure the scenes, costumes, lighting, lines, and props are all perfect before opening night.

#### PRACTICE:

The chorus practices once a week in the auditorium. Most times they are able to work through 3-4 pages of music a week!

#### ADVANCED:

There are varying levels of photography based on experience and involvement. Here we have the Advanced Class which is comprised of Rory Razon, Rachael Thomas, Liz Anderson, Dawn Campbell, Keri Ouellette, and Amy Cody.

#### GOING GRAY:

All makeup and hair for the drama presentations is done by either the cast members or by parents and other volunteers. The makeup and hair adds to the visual appearance of the play.

#### LEADING LADIES:

Mrs. Collela and Mrs. O'Donnell have worked to put on many great performances: *Anything Goes*, *The King and I*, *You Can't Take it With You*, *Our Town*, and this spring, *West Side Story*.

### Yearbook Teaches Practical Skills:

Yearbook is one of the most valuable extra-curricular activities at Bourne High School. The Yearbook staff works all year long to create a book of documentation of the events and people in the school. Yearbook also provides background in creating page layouts, caption writing, editing, publishing, and advanced technological skills. What is most amazing is that the staff actually puts together a 160 page book that will be viewed by students of Bourne High School for years and years...

# SCHOOL

## ■ ■ ■ 1:37 p.m. ■ ■ ■ IS OUT

At the end of the day, after 6 hours of studies, students are quite ready to leave the school. However, many remain at the school to participate in various after-school activities and sports. This page is dedicated to the winter trek out to buses and cars.

### EXIT STAGE LEFT:

There are three main exits from the building after school. One is the by the main foyer, another is by the student parking lot and the last is by the floating stair case as pictured.

### BLANKET OF SNOW:

Students leave footprints in the snow on the ground. The white blanket of snow is left untouched until the stampede of students leaves the building going to buses or cars.

### DISMISSED:

When the bell rings at 1:37 p.m. students are very eager to leave building and participate in after school activities or sports or hang out with their friends.

#### FROZEN CARS:

Snow covers the cars left in the student parking lot during the day. Here is Jon Aurelio's car with a "taxi cab checker-board" design on the sides.

#### FROSTY:

A student scrapes ice of the windows of his car after school. During school, students watched the snow falling hoping that school would be dismissed early. It wasn't.

#### STILL AT SCHOOL:

Robert Kavanaugh and Tom Gruel are the only ones left in the upper A-wing hall. Since both of them drive to school there is no immediate rush to get out of the building at the end of the school day.

#### BUSES:

Students hurry to the buses. Buses leave about five minutes after the last bell for the day. However, there are also late buses that will arrive at the school at about 2:25 p.m. to take students who stayed after school home.

#### MORE BUSES:

Students walking out to the buses are monitored by Mr. Grondin and some of the Guidance Counselors. When it looks as if all the students who are traveling via bus are on the individual buses these faculty monitors wave to the lead bus and the buses are homeward bound.

Bourne High School is flooded sending students home after half a day of school.

## WATER WORLD

The door to the student parking lot was closed because of a water main break for over two months. This meant that all students who drove to school had to walk around to the front of the building to enter in the morning and had to exit out of the main door and walk around to the student parking lot after school.

On January 4, 1999, the first day back after Christmas Vacation, students were treated to an early dismissal. However, this dismissal was not because the administration decided to let students out but rather a problem with the main water pipe. The water pipe which was located just below Mr. Southworth's office, burst. The mess was cleaned up in time to open the doors for school the next day. The unfortunate consequence was the closing of the student parking lot exit for construction. The entry was closed for over two months. The construction involved filling in the ground with dirt and then repairing the floor of the Athletic Director's office. When this was done, the exit was re-opened until the summer when the pipe will be dug up and fixed. Insurance will cover the majority of the bill but there is some cost that will

to come from other funds. Until the water main was fixed in the summer the school was hooked up to a second, smaller water main which runs under the auditorium.
